

The background of the entire slide is a complex, abstract network of green lines and dots. The lines are thin and connect various points, creating a mesh-like structure. The dots are small and vary in brightness, with some appearing as bright yellow-green and others as a darker green. The overall effect is a sense of dynamic connectivity and data flow, typical of a neural network or a complex system architecture.

DEAR NVIDIAANS AND STAKEHOLDERS,

GPU COMPUTING HAS ARRIVED.

The tool that we built for the da Vincis and Einsteins of our time is the force behind today's most promising trends, from gaming and VR to AI and self-driving cars.

We leverage our powerful platform by focusing on the hardest problems that only we can solve. They require deep technical integration, from processor to software to systems to domain expertise. They are worth the efforts of our talented, dedicated employees.

And they matter to the world.

OUR COMPANY IS UNIQUE IN ITS EVOLUTION AND MARKET POSITION. OUR STRATEGY IS FIRING ON ALL CYLINDERS.

Revenue was up 38% to reach a record \$6.9 billion and gross margins expanded 270 basis points to hit 58.8 percent. GAAP earnings per share were \$2.57, up 138 percent. And we returned \$1 billion to shareholders through dividends and stock repurchases.

Our gaming business grew 44% this year to a record \$4.1 billion. The breakthrough Pascal architecture solidified our market leadership. And we expanded our platform with solutions to ride the massive waves of blockbuster games, eSports, and social media.

We continued to lead visual computing, seeing double digit growth in our professional visualization business and advancing the field with our latest Iray and VR technologies.

AI fueled the rapid growth of our datacenter business, which tripled year over year in the fourth quarter, bringing total annual revenue to \$830 million. We have a multi-year lead in AI computing. We've built an end-to-end platform that starts with a GPU optimized for AI. Our single architecture spans computers of every shape and size—PCs, servers, IoT devices—and is available from every cloud service provider—Alibaba, Amazon, Google, IBM, Microsoft. GPU deep learning is the most advanced, most accessible platform for AI.

Adoption of DRIVE PX 2 spurred our multi-year lead in AI car computing.

Our AI car platform spans the range of autonomous vehicles, from auto-piloted cars to driverless shuttles, from training to cloud mapping to in-car AI capabilities. Some of the world's most innovative automakers, the world's largest auto suppliers, and the leading mapping companies have adopted DRIVE PX.

Transformed from chips to platforms and products.

Along with our moves to build platforms for select vertical markets, we've also evolved from building chips to building systems. NVIDIA SHIELD is one example of this transformation. SHIELD is a tiny supercomputer for the home. It brings NVIDIA's famed gaming capabilities to the living room, serves up 4K HDR movies, and is the AI computer that will one day let you talk to and control your home. The DGX-1 AI supercomputer, our main thrust to bring AI to every enterprise, is another example of our systems approach.

Today, NVIDIA is capable of innovating across the entire computing stack—from the most advanced GPUs to innovative systems, from graphics to AI, from device to cloud—to serve the most exciting growth industries of our time.

GIVING BACK TO OUR COMMUNITIES

NVIDIANS are passionate about giving back to their communities, with a long history of volunteerism and strong support for fighting cancer and improving education. Our philanthropic giving this year exceeded \$5 million.

Our company regularly receives top marks on prominent lists of the most socially and environmentally responsible companies, including debuting at No. 20 on the 100 Best Corporate Citizens list in 2016.

Our employee-run NVIDIA Foundation sets the priorities for our philanthropic efforts. We have invested more than \$3 million in Compute the Cure, which aids researchers using GPU computing techniques to accelerate their cancer-fighting work as well as nonprofits providing care and support services to those affected by the disease.

This includes \$200,000 grants this year to the Translational Genomics Research Institute for research to discover individualized therapeutic vulnerability in cancer, and to a team at the University of North Texas that aims to discover new cancer biomarkers to improve diagnosis and treatment.

With Project Inspire, our employees and their families come together each year to enhance their local communities. In Santa Clara, we celebrated our 10th annual and largest yet event, which brought together 1,650 of us to transform a local high school in an underserved neighborhood. In Pune, India, nearly 200 employees and their families improved a rural high school and junior college. In the U.K., NVIDIANS teamed up to improve a facility for people with learning disabilities.

SHAPING THE FUTURE

NVIDIA is a learning machine. For over two decades, we've continuously reinvented ourselves. Our work today is shaping the industries and society of tomorrow.

The computing model that we pioneered is at the convergence of visual computing, high performance computing, and AI—technologies that will redefine the relationship between man and machine. The world we inhabit will increasingly be expanded by virtual realities. And our natural abilities will be amplified by artificial intelligence.

This is undoubtedly the most exciting time in our industry. AI will revolutionize the very structure and fabric of society, from transportation to healthcare, and allow us to finally tackle those challenges that matter most, like finding a cure for cancer.

We, at NVIDIA, are seizing the moment.

Jensen Huang
CEO and Founder, NVIDIA
April 2017

The NVIDIA DGX SATURNV supercomputer will turboboost the U.S. government's Cancer Moonshot. Comprised of 124 DGX-1 systems, SATURNV is the most energy-efficient supercomputer in the world.

NVIDIA CORPORATION

NOTICE OF 2017 ANNUAL MEETING PROXY STATEMENT AND FORM 10-K

FORWARD-LOOKING STATEMENTS

Certain statements in this document including, but not limited to, statements as to: the impact and benefits of our products and technologies; the drivers of computer gaming growth; the impact of virtual reality, artificial intelligence and autonomous vehicles; and our market position and strategies are forward-looking statements that are subject to risks and uncertainties that could cause results to be materially different than expectations. Important factors that could cause actual results to differ materially include: global economic conditions; our reliance on third parties to manufacture, assemble, package and test our products; the impact of technological development and competition; development of new products and technologies or enhancements to our existing products and technologies; market acceptance of our products or our partners' products; design, manufacturing or software defects; changes in consumer preferences or demands; changes in industry standards and interfaces; unexpected loss of performance of our products or technologies when integrated into systems; as well as other factors detailed from time to time in the reports NVIDIA files with the Securities and Exchange Commission, or SEC, including its Form 10-K for the fiscal period ended January 29, 2017. Copies of reports filed with the SEC are posted on the company's website and are available from NVIDIA without charge. These forward-looking statements are not guarantees of future performance and speak only as of April 7, 2017, and, except as required by law, NVIDIA disclaims any obligation to update these forward-looking statements to reflect future events or circumstances.

NOTICE OF 2017 ANNUAL MEETING OF STOCKHOLDERS

Date and time: Tuesday, May 23, 2017 at 10:30 a.m. Pacific Daylight Time

Location: Online at www.virtualshareholdermeeting.com/NVIDIA2017

Items of business:

- Election of twelve directors nominated by the Board of Directors
- Approval of our executive compensation
- Approval of the frequency of holding a vote on executive compensation
- Ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2018

Transaction of other business properly brought before the meeting

Record date: You can attend, and vote at, the annual meeting if you were a stockholder of record at the close of business on March 24, 2017.

Virtual meeting admission: We will be holding our annual meeting online only this year at www.virtualshareholdermeeting.com/NVIDIA2017. To participate in the annual meeting, you will need the control number included on your notice of Internet availability of the proxy materials or your proxy card (if you received a printed copy of the proxy materials).

Pre-meeting forum: The online format for the annual meeting also allows us to communicate more effectively with you via a pre-meeting forum that you can enter by visiting www.proxyvote.com. On our pre-meeting forum, you can submit questions in advance of the annual meeting, and also access copies of our proxy statement and annual report.

Your vote is very important. Whether or not you plan to attend the virtual meeting, **PLEASE VOTE YOUR SHARES**. As an alternative to voting online at the meeting, you may vote via the Internet, by telephone or, if you receive a paper proxy card in the mail, by mailing the completed proxy card.

Important notice regarding the availability of proxy materials for the Annual Meeting of Stockholders to be held on May 23, 2017. This Notice, our Proxy Statement, our Annual Report on Form 10-K and our Stockholder Letter are available at www.nvidia.com/proxy.

By Order of the Board of Directors

A handwritten signature in black ink, appearing to read "T. S. Teter", with a stylized flourish at the end.

Timothy S. Teter
Secretary

Santa Clara, California

2017 Annual Meeting of Stockholders

Date and time: Tuesday, May 23, 2017 at 10:30 a.m. Pacific Daylight Time
Location: Online at www.virtualshareholdermeeting.com/NVIDIA2017
Record date: Stockholders as of March 24, 2017 are entitled to vote
Admission to meeting: You will need your Control Number to attend the annual meeting

Voting Matters and Board Recommendations

A summary of the 2017 Meeting proposals is below. **Every stockholder's vote is important. Our Board urges you to vote your shares FOR proposals 1, 2 and 4, and for 1 YEAR for proposal 3.**

Matter	Page	Board Recommendation	Vote Required for Approval	Effect of Abstentions	Effect of Broker Non-Votes
Management Proposals:					
Election of twelve directors	10	FOR each director nominee	More FOR than WITHHOLD votes	None	None
Approval of our executive compensation	29	FOR	Majority of shares present	Against	None
Approval of the frequency of holding a vote on executive compensation	60	1 YEAR	Majority of shares present	Against	None
Ratification of selection of PwC as our independent registered public accounting firm for Fiscal 2018	61	FOR	Majority of shares present	Against	None

Election of Directors (Proposal 1)

The following table provides summary information about each director nominee:

Name	Age	Director Since	Occupation	Fiscal 2017 Committees		
				AC	CC	NCGC
Robert K. Burgess	59	2011	Independent Consultant		Chair	
Tench Coxe	59	1993	Managing Director, Sutter Hill Ventures		Member	
Persis S. Drell	61	2015	Provost, Stanford University		Member	
James C. Gaither	79	1998	Managing Director, Sutter Hill Ventures			Member
Jen-Hsun Huang	54	1993	President & CEO, NVIDIA Corporation			
Dawn Hudson	59	2013	Chief Marketing Officer, National Football League		Member	
Harvey C. Jones	64	1993	Managing Partner, Square Wave Ventures		Member	Member
Michael G. McCaffery	63	2015	Chairman & Managing Director, Makena Capital Management	Member ⁽¹⁾		
William J. Miller ⁽²⁾	71	1994	Independent Consultant			Chair
Mark L. Perry	61	2005	Independent Consultant	Chair ⁽¹⁾		
A. Brooke Seawell	69	1997	Venture Partner, New Enterprise Associates	Member ⁽¹⁾		
Mark A. Stevens	57	2008 ⁽³⁾	Managing Partner, S-Cubed Capital	Member		Member

⁽¹⁾ AC Financial Expert

⁽²⁾ Lead Director

⁽³⁾ Mr. Stevens previously served as a member of our Board from 1993 until 2006

Board Overview and Recent Refreshment

Our director nominees exhibit a variety of competencies, professional experience and backgrounds, and contribute diverse viewpoints and perspectives to our well-rounded Board. While the Board benefits from the extensive experience and institutional knowledge that our longer-serving directors bring, it has also brought in new perspectives and ideas by appointing four new directors in the last six years, most recently Dr. Drell and Mr. McCaffery in 2015. Below are the skills and competencies that our NCGC and Board consider important for our directors to have in light of our current business, and the number of directors that possess these competencies:

Corporate Governance Highlights

Our Board is committed to strong corporate governance, which is used to promote the long-term interest of NVIDIA and our stockholders. Regular stockholder outreach is important to us. We seek a collaborative approach to stockholder issues that affect our business and to ensure that our stockholders see our governance and executive pay practices as well-structured. Each year, our management contacts our top 20 institutional stockholders (except for brokerage firms and institutional stockholders who we know do not engage in individual conversations with issuers) to gain valuable insights into their views on corporate governance and executive compensation issues. We met with stockholders holding a total of approximately 30% of our common stock in both Fall of 2015 and Fall of 2016. Our Lead Director attended these meetings, and we expect representatives of the Board will continue to participate in future stockholder outreach.

In response to feedback received during our annual stockholder outreach meetings, and in keeping with what is rapidly becoming a corporate governance best practice, in November 2016, the NCGC recommended, and the Board voluntarily adopted, a “proxy access” amendment to our Bylaws which enables a stockholder (or a group of up to 20 stockholders) owning at least 3% of the voting power of NVIDIA’s outstanding capital stock, continuously for at least three years, to include information in our proxy statement regarding director nominees for the greater of two candidates or 20% of the Board.

Highlights of our corporate governance practices include:

- ✓ Proxy access
- ✓ Declassified Board
- ✓ Majority voting for directors
- ✓ Active Board oversight of risk and risk management
- ✓ Stock ownership guidelines for our directors and executive officers
- ✓ 75% or greater attendance by each Board member at meetings of the Board and applicable committees
- ✓ Independent Lead Director
- ✓ 11 out of 12 Board members independent
- ✓ At least annual Board and committee self-assessments
- ✓ Annual stockholder outreach, including Lead Director participation
- ✓ Independent directors frequently meet in executive sessions

Approval of Executive Compensation for Fiscal 2017 (Proposal 2)

We are asking our stockholders to cast a non-binding vote, also known as “say-on-pay,” to approve our NEOs’ compensation. The Board believes that our compensation policies and practices are effective in achieving our goals of attracting, motivating and retaining a high-caliber executive team, rewarding financial and operating performance and aligning our executives’ interests with those of our stockholders to create long-term value. The Board has adopted a policy of providing for annual “say-on-pay” votes.

Executive Compensation Highlights

Consistent with our goal of attracting, motivating and retaining a high-caliber executive team, our executive compensation program is designed to pay for performance. We utilize compensation elements that meaningfully align our NEOs’ interests with those of our stockholders to create long-term value. As such, our NEO pay is heavily weighted toward “at-risk,” performance-based compensation, in the form of SY PSUs, MY PSUs and a variable cash incentive that is only earned if we achieve multiple corporate financial metrics.

At our 2016 Meeting, over 97% of the votes cast on our say-on-pay proposal were in support of the compensation paid to our NEOs for Fiscal 2016. After careful consideration of the results of this advisory vote, and given the significant level of stockholder support and our regular stockholder outreach efforts, our CC concluded that our program continues to align executive pay with stockholder interests. Accordingly, the CC determined not to make any significant changes to our program for Fiscal 2017 as a result of the advisory vote, but to continue to evaluate and refine our program to strengthen the link between our corporate performance and our NEO pay.

Fiscal 2017 Financial Highlights

Please see *Reconciliation of Non-GAAP Financial Measures* in our *Compensation Discussion and Analysis* for a reconciliation between the non-GAAP measures and GAAP results.

Approval of the Frequency of Holding a Vote on Executive Compensation (Proposal 3)

We are asking our stockholders to cast a non-binding vote, also known as “say-on-frequency,” to indicate their preference regarding how frequently we should solicit a non-binding advisory vote on the compensation of our NEOs. Accordingly, we are asking stockholders to indicate whether they would prefer an advisory vote every one, two or three years. Management recommends an annual vote.

Ratification of Selection of PricewaterhouseCoopers LLP as our Independent Registered Public Accounting Firm for Fiscal Year 2018 (Proposal 4)

We are asking our stockholders to ratify the AC’s selection of PwC as our independent registered public accounting firm for Fiscal 2018. While we are not required to have our stockholders ratify the selection of PwC, we are doing so because we believe it is a matter of good corporate practice. If our stockholders do not ratify the selection, the AC will reconsider the appointment, but may nevertheless retain PwC as our independent registered public accounting firm. Even if the selection is ratified, the AC may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of NVIDIA and our stockholders.

NVIDIA CORPORATION
2701 SAN TOMAS EXPRESSWAY
SANTA CLARA, CALIFORNIA 95050
(408) 486-2000

PROXY STATEMENT FOR THE 2017 ANNUAL MEETING OF STOCKHOLDERS - MAY 23, 2017

INFORMATION ABOUT THE MEETING

Your proxy is being solicited for use at the 2017 Meeting on behalf of the Board. Our 2017 Meeting will take place on Tuesday, May 23, 2017 at 10:30 a.m. Pacific Daylight Time.

Meeting Attendance

If you were an NVIDIA stockholder as of the close of business on the March 24, 2017 record date, or if you hold a valid proxy, you can attend and vote at our 2017 Meeting at www.virtualshareholdermeeting.com/NVIDIA2017, which contains instructions on how to demonstrate proof of stock ownership, and how to vote and submit questions via the Internet. Our 2017 Meeting will be held entirely online to allow greater participation and improved communication, and provide cost savings for our stockholders and NVIDIA. You will need the Control Number included on your Notice or proxy card (if you received a printed copy of the proxy materials) to enter the meeting.

The online format for the 2017 Meeting will allow us to communicate more effectively with you via a pre-meeting forum that you can enter by visiting www.proxyvote.com. On our pre-meeting forum, you can submit questions in advance of the 2017 Meeting, and also access copies of our proxy statement and annual report.

Even if you plan to attend the 2017 Meeting online, we recommend that you also vote by proxy as described below so that your vote will be counted if you later decide not to attend the 2017 Meeting.

Non-stockholders can also listen to the 2017 Meeting live at www.virtualshareholdermeeting.com/NVIDIA2017. An archived copy of the webcast will be available at www.nvidia.com/proxy through June 6, 2017.

Quorum and Voting

Quorum. To hold our 2017 Meeting, we need a majority of the outstanding shares entitled to vote at the close of business on March 24, 2017, or a quorum, represented at the 2017 Meeting either by attendance online or by proxy. On the record date, there were 594,536,974 shares of common stock outstanding and entitled to vote, meaning that 297,268,488 shares must be represented at the 2017 Meeting or by proxy to have a quorum. A list of stockholders entitled to vote at the 2017 Meeting will be available at our headquarters, 2701 San Tomas Expressway, Santa Clara, California for 10 days prior to
