

MARK L. PERRY

Independent Consultant

Age: 65

Director Since: 2005

Current Committees: AC, NCGC

Committees Effective upon the 2021 Meeting: AC, NCGC

Lead Director

Financial Expert

Other Current Public Company Boards:

- Global Blood Therapeutics, Inc. (since 2015)

Senior Leadership & Operations Experience

Financial/Financial Community

Governance & Public Company Board

Regulatory, Legal & Risk Management

Human Capital Management Experience

Mark L. Perry serves on the boards of, and consults for, various public and private companies, and non-profit organizations. From 2012 to 2013, Mr. Perry served as an Entrepreneur-in-Residence at Third Rock Ventures, a venture capital firm. He served from 2007 to 2011 as president and chief executive officer of Aerovance, Inc., a biopharmaceutical company. He was an executive officer from 1994 to 2004 at Gilead Sciences, Inc., a biopharmaceutical company, serving in a variety of capacities, including general counsel, chief financial officer, and executive vice president of operations, responsible for worldwide sales and marketing, legal, manufacturing and facilities; he was also its senior business advisor until 2007. From 1981 to 1994, Mr. Perry was with the law firm Cooley LLP, where he was a partner for seven years. He served on the board of directors of MyoKardia, Inc. from 2012 to 2020. Mr. Perry holds a BA degree in History from the University of California, Berkeley, and a JD degree from the University of California, Davis.

Mr. Perry brings to the Board operating and finance experience gained in a large corporate setting. He has varied experience in legal affairs and corporate governance, and a deep understanding of the roles and responsibilities of a corporate board.

A. BROOKE SEAWELL

Venture Partner, New Enterprise Associates

Age: 73

Director Since: 1997

Current Committees: AC

Committees Effective upon the 2021 Meeting: AC

Independent Director

Financial Expert

Other Current Public Company Boards:

- Tenable Holdings, Inc. (since 2017)

Human Capital Management Experience

A. Brooke Seawell has served since 2005 as a venture partner at New Enterprise Associates, and was a partner from 2000 to 2005 at Technology Crossover Ventures. He was executive vice president from 1997 to 1998 at NetDynamics, Inc., an application server software company, which was acquired by Sun Microsystems, Inc. He was senior vice president and chief financial officer from 1991 to 1997 of Synopsys, Inc., an electronic design automation software company. He serves on the board of directors of several privately held companies. Mr. Seawell served on the board of directors of Glu Mobile, Inc., a publisher of mobile games, from 2006 to 2014; of Informatica Corp., a data integration software company, from 1997 to 2015; and of Tableau Software, Inc., a business intelligence software company, from 2011 to August 2019. He also previously served as a member of the Stanford University Athletic Board and on the Management Board of the Stanford Graduate School of Business. Mr. Seawell holds a BA degree in Economics and an MBA degree in Finance from Stanford University.

Mr. Seawell brings to the Board operational expertise and senior management experience, including knowledge of the complex issues facing public companies, and a deep understanding of accounting principles and financial reporting. His significant financial community experience gives the Board an understanding of the methods by which companies can increase value for their stockholders.

AARTI SHAH

Senior Vice President and Chief Information and Digital Officer, Eli Lilly and Company

Diversity

Aarti Shah has been senior vice president and chief information and digital officer of Eli Lilly and Company since 2016. Dr. Shah has worked at Lilly for 27 years and has served in several functional and business leadership roles, including senior statistician, research scientist, vice president for biometrics, and global brand development leader in Lilly's Bio-Medicines business unit. She was promoted to senior vice president and became chief information officer in 2016. Dr. Shah has been on the board of trustees of Northwestern Mutual since 2020. She also serves on several nonprofit boards, including the Indiana India Business Council and Shrimad Rajchandra Love & Care USA. She served on the Indianapolis Public Library Foundation board for the full term of 9 years and on the Center for Interfaith Cooperation for the full term of 4 years. Dr. Shah received her bachelor's and master's degrees in statistics and mathematics in India before completing her Ph.D. in applied statistics from the University of California, Riverside.

Dr. Shah brings to the Board executive leadership and senior operating experience. Additionally she brings expertise in drug development and technical expertise in the areas of information technology, cybersecurity, advanced analytics and data sciences and digital health.

MARK A. STEVENS

Managing Partner, S-Cubed Capital

Age: 61

Director Since: 2008
(previously served 1993-2006)

Current Committees: AC, NCGC

Committees Effective upon the 2021 Meeting: AC, NCGC

Independent Director

Governance & Public Company Board

Emerging Technologies & Business Models

Mark A. Stevens has been the managing partner of S-Cubed Capital, a private family office investment firm, since 2012. He was a managing partner from 1993 to 2011 of Sequoia Capital, a venture capital investment firm, where he had been an associate for the preceding four years. Previously, he held technical sales and marketing positions at Intel Corporation, and was a member of the technical staff at Hughes Aircraft Co. He is a Trustee of the University of Southern California. Mr. Stevens was a director of Quantenna Communications, Inc., a provider of Wi-Fi solutions, from 2016 until 2019. Mr. Stevens holds a BSEE degree, a BA degree in Economics and an MS degree in Computer Engineering from the University of Southern California and an MBA degree from Harvard Business School.

Mr. Stevens brings to the Board a deep understanding of the technology industry, and the drivers of structural change and high-growth opportunities. He provides valuable insight regarding corporate strategy development and the analysis of acquisitions and divestitures. His significant financial community experience gives the Board an understanding of the methods by which companies can increase value for their stockholders.

Information About the Board of Directors and Corporate Governance

Independence of the Members of the Board of Directors

Nasdaq rules and our Corporate Governance Policies (as further described below) require that a majority of our directors not have a relationship that would interfere with their exercise of independent judgment in carrying out their responsibilities and that they meet any other qualification requirements required by the SEC and Nasdaq. After considering all relevant relationships and transactions, our Board determined that, except for Mr. Huang, all of our directors are “independent” as defined by Nasdaq’s rules and regulations. In addition, the Board previously determined that James C. Gaither, a former director who retired from our Board effective June 9, 2020, was independent under applicable Nasdaq listing standards.

The Board also determined that all members of our AC, CC and NCGC are independent under applicable Nasdaq listing standards, and that each of Messrs. McCaffery, Perry and Seawell and Ms. Hudson of the AC are “audit committee financial experts” as defined under applicable SEC rules.

Board Leadership Structure

Our Board believes that each of its members should have an equal voice in the affairs and the management of NVIDIA, and therefore, our stockholders are best served at this time by having an independent Lead Director, rather than having a chairperson. Our Lead Director is an integral part of our Board structure and a critical aspect of our effective corporate governance. The independent directors consider the role and designation of the Lead Director on an annual basis, and Mr. Perry was appointed as our Lead Director in 2018. In addition, Mr. Perry serves on both the NCGC and the AC, which affords him increased engagement with Board governance and composition as well as with risk assessment and management, and financial and regulatory matters of the Company. While the CEO has primary responsibility for preparing the agendas for Board meetings and presiding over the portion of the meetings of the Board where he is present, our Lead Director has significant responsibilities, which are set forth in our Corporate Governance Policies, and include, in part:

- Determining an appropriate schedule of Board meetings, and seeking to ensure that the independent members of the Board can perform their duties responsibly while not interfering with the flow of our operations;
- Working with the CEO, and seeking input from other directors and relevant management, as to the preparation of the agendas for Board meetings;
- Advising the CEO on a regular basis as to the quality, quantity and timeliness of the flow of information requested by the Board from our management with the goal of providing what is necessary for the independent members of the Board to effectively and responsibly perform their duties, and, although our management is responsible for the preparation of materials for the Board, the Lead Director may specifically request the inclusion of certain material; and
- Coordinating, developing the agenda for, and moderating executive sessions of the independent members of the Board, and acting as principal liaison between them and the CEO on sensitive issues.

The active involvement of our independent directors, combined with the qualifications and significant responsibilities of our Lead Director, provide balance on the Board and promote strong, independent oversight of our management and affairs.

Role of the Board in Risk Oversight

The Board is responsible for overseeing risk management at NVIDIA and delegates oversight of appropriate topics to its committees. Our AC has the responsibility to consider and discuss major financial risk exposures and the steps management has taken to monitor and control these exposures. The AC also monitors compliance with certain legal and regulatory requirements and oversees the performance of the internal audit function. Our NCGC monitors the effectiveness of our anonymous tip process and corporate governance guidelines, including whether they are successful in preventing illegal or improper liability-creating conduct, and oversees environmental, social and corporate governance risks, ranging from the impact of artificial intelligence to diversity and inclusion to climate change. Our CC assesses and monitors whether any of our compensation policies and programs has the potential to encourage excessive risk-taking. The Board exercises direct oversight of strategic risks to NVIDIA and other risk areas not delegated to one of its committees, including business continuity and cybersecurity.

Management periodically provides information, including guidance on risk management and mitigation, to the Board or a relevant committee. Each committee also reports to the Board on those matters.

The Board and its committees have received regular reports from management regarding the impact, risks and opportunities of COVID-19 on our business, operations and people. For example, while our Professional Visualization and Automotive market platforms were negatively affected by the pandemic, our Gaming and Data Center market platforms have benefited from stronger demand as people continue to work, learn, and play from home. COVID-19 has also caused volatility and disruption in global financial markets and global economic activity, and has impacted the supply chain, including logistical services and component supply, topics on which the Board and its committees were briefed regularly. Additionally, the Board has overseen the execution of management's initiatives to protect the health and safety of our workforce, including closure of our offices, compliance with shelter-in-place orders and the temporary prohibition on most business travel, and to support NVIDIANS and their families during a challenging year by moving up our annual focal review to accelerate the timing of raises and implementing a one-week company-wide shut down in December for our people to recharge.

Corporate Governance Policies of the Board of Directors

The Board has adopted Corporate Governance Policies to ensure that it has the necessary authority and processes in place to review and evaluate our business operations as needed and to make decisions that are independent of our management. The Corporate Governance Policies set forth the practices the Board follows with respect to its composition and selection, regular evaluations of the Board and its committees, Board meetings and involvement of senior management, chief executive officer performance evaluation, and Board committees and compensation. Our Corporate Governance Policies may be viewed under Governance in the Investor Relations section of our website at www.nvidia.com.

Executive Sessions of the Board

As required under Nasdaq's listing standards, our independent directors have in the past met, and will continue to meet, regularly in scheduled executive sessions at which only independent directors are present, as well as in sessions with the CEO. In Fiscal 2021, our independent directors met in both types of executive sessions at all four of our scheduled quarterly Board meetings.

Director Attendance at Annual Meeting

We do not have a formal policy regarding attendance by members of the Board at our annual meetings. We expect that our directors will attend each annual meeting, absent a valid reason. All Board members as of the 2020 Meeting attended our 2020 Meeting.

Board Self-Assessments

In Fiscal 2021, the NCGC oversaw an evaluation process, conducted at least annually, whereby outside corporate counsel for NVIDIA interviewed each director to obtain his or her evaluation of the Board as a whole, and of the committees on which he or she serves. The interviews solicited ideas from the directors about, among other things, improving the quality of Board and/or committee oversight effectiveness regarding strategic direction, financial and audit matters, executive compensation, acquisition activity and other key matters. The interviews also focused on Board process and identifying specific issues which should be discussed in the future. After these evaluations were complete, our outside corporate counsel summarized the results, reviewed them with our Lead Director, and then submitted the summary for discussion by the NCGC.

In response to the evaluations conducted in Fiscal 2021, our Board determined to focus recruiting efforts on director candidates with diversity of gender and/or racial/ethnic background, to further strengthen our director onboarding programs, and to dedicate additional time to certain Board agenda items such as cybersecurity, diversity and inclusion, and other ESG matters.

Director Orientation and Continuing Education

The NCGC and our General Counsel are responsible for new director orientation and for administering or approving eligible director continuing education programs. Continuing education programs for directors may include a combination of internally developed materials and presentations, programs presented by third parties, and financial and administrative support for attendance at qualifying academic or other independent programs.

Director Stock Ownership Guidelines

The Board believes that directors should hold a significant equity interest in NVIDIA. Our Corporate Governance Policies require each non-employee director to hold shares of our common stock with a total value equal to six times the annual cash retainer for Board service during the period in which he or she serves as a director (or six times his base salary, in

the case of the CEO). The shares may include vested deferred stock, shares held in trust and shares held by immediate family members. Non-employee directors have five years after their Board appointment to reach the ownership threshold. Our stock ownership guidelines are intended to further align director interests with stockholder interests.

Each non-employee director and Mr. Huang currently meets or exceeds the stock ownership requirements, with the exception of Drs. Dabiri and Shah, who joined our Board in 2020 and have five years from joining the Board to reach the ownership threshold.

Hedging and Pledging Policy

Under our Insider Trading Policy, our directors, executive officers, employees, and their designees may not hedge their ownership of NVIDIA stock, including but not limited to trading in options, puts, calls, or other derivative instruments related to NVIDIA stock or debt to protect against a decline in the value of the Company's stock. Additionally, directors, executive officers, employees, and their designees may not purchase NVIDIA stock on margin, borrow against NVIDIA stock held in a margin account, or pledge NVIDIA stock as collateral for a loan. We allow for certain portfolio diversification transactions, such as investments in exchange funds.

Outside Advisors

The Board and each of its principal committees may retain outside advisors and consultants of their choosing at our expense. The Board need not obtain management's consent to retain outside advisors. In addition, the principal committees need not obtain either the Board's or management's consent to retain outside advisors.

Code of Conduct

We expect our directors, executives and employees to conduct themselves with the highest degree of integrity, ethics and honesty. Our credibility and reputation depend upon the good judgment, ethical standards and personal integrity of each director, executive and employee. We have a Code of Conduct that applies to our executive officers, directors and employees, including our principal executive officer, principal financial officer and principal accounting officer. We also have a Financial Team Code of Conduct that applies to our executive officers, directors and members of our finance department. We regularly review our Code of Conduct and related policies to ensure that they provide clear guidance to our directors, executives and employees.

The Code of Conduct and the Financial Team Code of Conduct are available under Governance in the Investor Relations section of our website at www.nvidia.com. If we make any amendments to the Code of Conduct or the Financial Team Code of Conduct or grant any waiver from a provision of either code to any executive officer or director, we will promptly disclose the nature of the amendment or waiver on our website.

Corporate Hotline

We have established an independent corporate hotline to allow any employee to confidentially and anonymously lodge a complaint about any accounting, internal control, auditing, Code of Conduct or other matter of concern (unless prohibited by local privacy laws for employees located in the European Union).

Stockholder Communications with the Board of Directors

Stockholders who wish to communicate with the Board regarding nominations of directors or other matters may do so by sending electronic written communications addressed to Timothy S. Teter, our Secretary, at shareholdermeeting@nvidia.com. All stockholder communications we receive that are addressed to the Board will be compiled by our Secretary. If no particular director is named, letters will be forwarded, depending on the subject matter, to the chairperson of the AC, CC or NCGC. Matters put forth by our stockholders will be reviewed by the NCGC, which will determine whether these matters should be presented to the Board. The NCGC will give serious consideration to all such matters and will make its determination in accordance with its charter and applicable laws.

Majority Vote Standard

Under our Bylaws, if the votes cast **FOR** an incumbent director in a non-contested election do not exceed the number of **WITHHOLD** votes, such incumbent director shall promptly tender a resignation to the Board. The NCGC will then review the circumstances surrounding the **WITHHOLD** vote and promptly make a recommendation to the Board on whether to accept or reject the resignation or whether other action should be taken. The Board will act on the NCGC's recommendation and publicly disclose its decision and the rationale behind it within 90 days from the date of certification of the stockholder vote.

In a contested election, in which the number of nominees exceeds the number of directors to be elected, our directors will be elected by a plurality of the shares represented at any such meeting or by proxy and entitled to vote on the election of directors at that meeting. The directors receiving the greatest number of **FOR** votes will be elected.

Board Meeting Information

The Board met 10 times during Fiscal 2021, including meetings during which the Board discussed the strategic direction of NVIDIA, explored and discussed new business and strategic opportunities and the product roadmap, and other matters facing NVIDIA. We expect each Board member to attend each meeting of the Board and the committees on which he or she serves. Each Board member attended 75% or more of the meetings of the Board and of each committee on which he or she served.

Committees of the Board of Directors

The Board has three standing committees: an AC, a CC and a NCGC. Each of these committees operates under a written charter, which may be viewed under Governance in the Investor Relations section of our website at www.nvidia.com.

The composition and functions of our committees are set forth below. Committee assignments are determined based on background and the expertise which individual directors can bring to a committee. Our Board believes that rotations among committees are a good corporate governance practice which allows its members to be more fully informed regarding the full scope of the Board and our activities, and benefits each committee and the Board as a whole, as a result of diverse perspectives and ideas that are introduced through new committee formations.

AC		
AC Members Effective as of our 2019 Meeting	AC Members Effective as of our 2020 Meeting	AC Members Effective as of our 2021 Meeting
Michael G. McCaffery (Chair) Dawn Hudson Mark L. Perry Mark A. Stevens	Michael G. McCaffery (Chair) Dawn Hudson Mark L. Perry A. Brooke Seawall Mark A. Stevens	Michael G. McCaffery (Chair) Mark L. Perry A. Brooke Seawall Aarti Shah Mark A. Stevens
In Fiscal 2021, the AC met four times and selected highlights from its agenda topics included: cash usage and strategy, critical audit matters, and COVID-19 and return to work, tax, and treasury reviews.		
Committee Role and Responsibilities		
- Oversees our corporate accounting and financial reporting process; - Oversees our internal audit function; - Determines and approves the engagement, retention and termination of the independent registered public accounting firm; - Evaluates the performance of and assesses the qualifications of our independent registered public accounting firm; - Reviews and approves the retention of the independent registered public accounting firm for permissible non-audit services; - Confers with management and our independent registered public accounting firm regarding the results of the annual audit, our quarterly financial statements and results, and the effectiveness of internal control over financial reporting; - Reviews the financial statements to be included in our quarterly reports on Form 10-Q and annual report on Form 10-K; - Reviews earnings press releases and the substance of financial information and outlook provided to analysts on earnings calls; - Prepares the report required to be included by SEC rules in our annual proxy statement or Form 10-K; and - Establishes procedures for the receipt, retention and treatment of complaints we receive regarding accounting, internal accounting controls or auditing matters and the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters.		

CC		
CC Members Effective as of our 2019 Meeting	CC Members Effective as of our 2020 Meeting	CC Members Effective as of our 2021 Meeting

In Fiscal 2021, the NCGC met three times and selected highlights from its agenda topics included: consideration of Board recruiting matters, review of diversity and inclusion initiatives, the Company's ESG efforts, and addressing stockholder concerns.		
Committee Role and Responsibilities • Identifies, reviews and evaluates candidates to serve as directors; • Recommends candidates for election to our Board; • Makes recommendations to the Board regarding committee membership and chairs; • Assesses the performance of the Board and its committees; • Reviews and assesses our corporate governance principles and practices; • Monitors changes in corporate governance practices and rules and regulations; • Approves related party transactions; • Reviews and assesses our environmental, social and corporate governance matters periodically; • Establishes procedures for the receipt, retention and treatment of complaints we receive regarding violations of our Code of Conduct; and • Monitors the effectiveness of our anonymous tip process.		
*Mr. Neal was added to the NCGC in August 2019		

Environmental, Social and Corporate Governance

NVIDIA invents the computing technologies that enable scientists, engineers, designers, researchers, and developers to improve lives everywhere and address global challenges. We integrate sound ESG principles and practices into every aspect of the Company. The following section provides an overview of these principles and practices. More information can be found on the Corporate Social Responsibility section of our website and in our 2020 Corporate Social Responsibility Report, which was prepared in accordance with the Core Option of the Global Reporting Initiative (GRI) Standards: Core Option and is responsive to the Sustainability Accounting Standards Board (SASB) standards for the Technology and Communications sector, Semiconductor industry. Information contained on our website is not incorporated by reference into this Proxy Statement or any other report we file with the SEC.

Human Capital Management

We believe that our employees are our greatest assets, and they play a key role in creating long-term value for our stakeholders. As of the end of Fiscal 2021, we had 18,975 employees in 29 countries. 13,532 were engaged in research and development and 5,443 were engaged in sales, marketing, operations, and administrative positions.

To be competitive and execute our business strategy successfully, we must recruit, develop, and retain talented employees, including qualified executives, scientists, engineers, technical staff, and research and development personnel. The primary ways in which we seek to do this are summarized below.

Recruitment

The demand for talent in new markets, such as AI and deep learning, is increasingly competitive. Our intern and new college graduate recruiting programs are a sustainable source of talent. We partner with higher education institutions globally to develop our candidate pipelines, recruit at industry conferences, and encourage our employees to submit referrals, with over 36% of hires coming from internal recommendations. Collaborations with our community resource groups improve how we reach and attract minority candidates.

Development and Retention

To support employee advancement, we provide training on-the-job through coaching, feedback, and role modeling. We have a rich library of live and on-demand learning experiences such as workshops, panel discussions, speaker-based forums, and internally focused technical conferences. We curate learning libraries around our most common development needs, provide the latest technical platforms to support self-paced learning, and regularly listen to learner feedback through internal messaging channels to improve and update those topics. We offer tuition reimbursement programs and subsidize advanced technical education programs and online technical certifications. We encourage internal mobility through career expos and coaching, as well as foster mentorship connections and provide trained coaches as additional developmental support. Our strong partnerships with internal community resource groups allow us to personalize programs to address specific career development needs.

To evaluate employee sentiment and engagement, we use several listening mechanisms such as pulse surveys, a suggestion box, and an anonymous third-party hotline.

In fiscal year 2021, our overall turnover rate was 3.8%.

Compensation, Benefits, and Well-Being

Our compensation program rewards performance and is structured to encourage employees to invest in the Company's future. Employees receive equity (except where unavailable due to local regulations) with a realized value that is tied to our stock price performance and vests over time to retain employees while simultaneously aligning their interests with those of our stockholders.

We offer comprehensive benefits to support our employees' and their families' well-being, including 401(k) programs in the U.S., statutory pension programs outside the U.S., our employee stock purchase program, flexible work hours and time off, and programs to address mental health, stress, and time-management challenges. We evaluate our benefit offerings globally and are committed to providing tailored benefits based on community needs, including assistance for military members, additional mental health benefits, and support for new parents, and those who wish to become parents.

Safety and COVID-19

We support our people and their families in making their health a top priority. We implemented global protocols to slow the spread of COVID-19 and to keep our workforce safe by closing our offices around the world in March 2020 for all except essential workers. We also eliminated most business travel. We provided our employees with resources to work

remotely and continued to pay all employees and contractors. For essential labs and offices that remain open, we instituted appropriate safety protocols and social distancing guidelines. Additionally, we provided resources for employees, including work from home support, enhanced health coverage, reimbursement for certain work from home expenses, and learning and development resources on how to lead and manage remotely.

Diversity and Inclusion

We believe that diverse teams fuel innovation, and we are committed to a more inclusive culture that supports all employees, regardless of gender, gender identity or expression, veteran status, race, ethnicity, or disability.

We have increased our efforts to recruit, develop, and retain a more diverse workforce with a focus on those historically underrepresented in the technology field, including women, Black, and Hispanic candidates. In Fiscal 2021, we created the role of Head of Diversity, Inclusion, and Belonging, along with hiring a global diversity recruiting leader, and a Head of Strategic Initiatives to build our developer ecosystem and ensure it represents the global population.

Efforts we are undertaking include:

- Shepherding underrepresented candidates through the interviewing process, engaging employees from underrepresented communities for recruiting events and interview panels, and increased investment in minority-serving institutions and professional organizations;
- Developing an internal slate of diverse talent for open management positions, beginning semi-annual talent review sessions with executives to identify internal, diverse talent, and forming sponsorship and career acceleration programs; and
- Increasing inclusion communications and pulse surveys to measure employee sentiments

As of the end of Fiscal 2021, our global workforce was 80% men and 20% women, and 6% of our workforce in the United States was composed of Black or African American, and Hispanic or Latino employees.

Climate Change and the Environment

We drive operational excellence to reduce our environmental impact. Our rapid and significant business growth and the urgent climate action imperative mean that we must focus on expanding strategically, managing our operations efficiently, and sourcing low-carbon and renewable forms of energy to avoid growth in our greenhouse gas (GHG) emissions footprint.

After meeting our goal of a 15 percent reduction in scope 1 and 2 GHG emissions, normalized per employee, from Fiscal 2014 to Fiscal 2020, we developed a new goal to source 65 percent of our global electricity use from renewable energy by the end of Fiscal 2025.

We also integrate energy efficiency principles into our products. Whether it is creation of technology to power next-generation notebooks or designs to support high-performance supercomputers, improving energy efficiency is a principal goal in each step of our research, development, and design processes. As a result, graphics processing units (GPUs) are inherently more energy efficient than other ways of computation because they are optimized for throughput and performance per watt rather than absolute performance.

Public Policy Engagement and Accountability

Our Government Relations team engages in public policy advocacy to affect government action on issues of importance to our business, customers, stockholders, and employees, and to provide thought leadership to global governments on issues that directly affect our business. It is also a platform for educating policymakers through demonstrations of NVIDIA's technology, amplifying our work in targeted areas, and collaborating with various organizations on issues of shared interest. We focus our public policy activities in artificial intelligence (AI), specifically to promote investment in core AI research, support workforce development around AI, and provide educational resources to technology policy advisors. NVIDIA may make expenditures to support or advocate particular viewpoints on public policy issues, including expenditures for intermediaries that advocate on our behalf if it is in our best interest.

NVIDIA does not make contributions of any kind (money, employee time, goods or services or employee expense reimbursements), to political parties or candidates, including any direct contributions to any intermediary organizations, such as political action committees (PAC) or lobbyists, campaign funds, or trade or industry associations and super PACs. This policy applies in all countries and across all levels of government, even where such contributions are permitted by law.
