

Factors Used in Determining Executive Compensation

In addition to peer data, our CC considers the following factors in making executive compensation decisions. The weight given to each factor may differ among NEOs and each component of pay, and is subject to the CC's sole discretion.

- ✓ The need to attract and retain talent in a highly competitive industry
- ✓ Stockholder feedback regarding our executive pay
- ✓ The simplicity of the overall program and the transparency of the performance metrics
- ✓ An NEO's past performance and anticipated future contributions
- ✓ Our financial performance and forecasted results
- ✓ The need for NEOs to address new business challenges
- ✓ Each NEO's current total compensation
- ✓ Each NEO's unvested equity
- ✓ Internal pay equity relative to similarly situated executives and the scope and complexity of the department(s) or function(s) the NEO manages
- ✓ Our CEO's recommendations for the other NEOs, including his understanding of each NEO's performance, capabilities, contributions
- ✓ Our CC's independent judgment
- ✓ Our philosophy that an NEO's total compensation opportunity and percentage of at-risk pay should increase with responsibility
- ✓ The total compensation cost and stockholder dilution from executive compensation, to maintain a responsible cost structure for our compensation programs*

* See Note 4, *Stock-Based Compensation* of our Form 10-K consolidated financial statements for a discussion of stock-based compensation cost.

Components of Pay

Taking into account (i) the Company's Fiscal 2021 outlook at the time of determining executive compensation (which occurred in early March 2021 prior to the full onset of the COVID-19 pandemic), (ii) stockholder feedback from our annual outreach efforts, and (iii) strong Fiscal 2020 say-on-pay approval, the CC maintained the same elements for our executive pay program for Fiscal 2021, with some adjustments to further strengthen the link between corporate performance and NEO pay, including an increase to the proportion of pay that is at-risk. The primary components of NVIDIA's Fiscal 2021 executive compensation program are summarized below:

We provide medical, vision, dental, and accidental death and disability insurance as well as time off and paid holidays for our NEOs, on the same basis as our other employees. Like other employees, our NEOs are eligible to participate in our 2012 ESPP, unless otherwise prohibited by the rules of the Internal Revenue Service, and our 401(k) plan, which included a Company match of salary deferral contributions of up to \$6,500 for calendar 2020, which increased to up to \$7,000 for calendar 2021. For Fiscal 2021, Mr. Puri, Mr. Teter and Ms. Kress each received a \$7,000 401(k) match, while Mr. Huang and Ms. Shoquist each received matches of \$6,500.

Compensation Actions and Achievements

Stockholder Outreach and Feedback

We value stockholder feedback and conduct an annual stockholder outreach program. During the Fall of 2019, in preparing for Fiscal 2021 compensation decisions, we contacted our top institutional holders who held 1% or more of our stock (with the exception of brokerage firms and index funds who we know do not engage in direct conversations), with an aggregate ownership of approximately 31% of our common stock outstanding. Members of management and the Board, including our Lead Director, ultimately discussed executive compensation with representatives of stockholders holding an aggregate of approximately 19% of our common stock. Our stockholders generally provided positive feedback on our pay for performance alignment and the simplicity of our executive compensation program design.

After considering their feedback, and our Fiscal 2020 say-on-pay approval rate of 95%, our CC determined to maintain the same general elements and metrics for our Fiscal 2021 NEO pay program, but increased the rigor of the corporate goals and increased the proportion of “at-risk” target pay to further align pay with performance, as described below. In the Fall of 2020, members of management and the Board, including our Lead Director and a member of our CC, again engaged in stockholder outreach. The CC considered the feedback from these meetings in making decisions regarding the current Fiscal 2022 executive compensation program.

Total Target Compensation Approach

Our CC reviewed each NEO's total target pay opportunity and distribution across different pay elements. Our CC compared Mr. Huang's base salary, target variable cash opportunity, target equity opportunity, and total target pay against chief executives of our peer companies. For our other NEOs, our CC reviewed their respective total target pay against similarly situated executives of our peer companies. The CC also considered the factors discussed above in *Factors Used in Determining Executive Compensation* and the CC's specific compensation objectives for Fiscal 2021. Our CC did not use a single formula or assign a specific weight to any one factor in determining each NEO's target pay. Instead, our CC used its business judgment and experience to set total target compensation, mix of cash and equity, and fixed and at-risk pay opportunities for each NEO to achieve our program's objectives. When the CC set each element of pay for an NEO, it considered the context of the levels of the other pay elements, and the resulting total target pay for such NEO. These amounts and structure allowed our NEOs to realize above-market value from equity awards and variable cash incentives only upon exceptional corporate performance.

For Fiscal 2021, the CC considered that NEO target pay had been kept essentially flat for the last three years, and made adjustments to better align each NEO's total target pay with those of similarly situated executives at our peer companies. As a result, Mr. Huang's total target pay increased by approximately 46% and each other NEO's total target pay increased by an average of 76%, with all increases pertaining to at-risk pay opportunities only.

While the CC generally made no changes to base salary and target variable cash compared to the prior year, it did increase Mr. Huang's target variable cash to 150% of his base salary, which brought his target variable cash compensation, as a percentage of his base salary, to the 25th percentile of peer company chief executive officers. For our other NEOs, the CC increased their respective target equity opportunities due to their increased responsibilities and scope, to better align their pay with those of peer executives, as well as to provide for retention.

Continued Emphasis on Long-Term, At-Risk, Performance-Based Equity Awards

For Fiscal 2021, the CC decided that the largest portion of NEOs' total target pay would remain in the form of at-risk, performance-based equity. The CC believes an emphasis on long-term, at-risk opportunities drives results and increases NEO and stockholder alignment, while providing sufficient annual cash compensation to be competitive and retain our NEOs. The PSUs and RSUs provide long-term incentives and retention benefits because our NEOs must achieve, for PSUs, the predetermined performance goal and also, for both PSUs and RSUs, remain with us for a multi-year period (3 years for MY PSUs and 4 years for SY PSUs and RSUs) to fully vest in the awards.

The CC concluded that, given Mr. Huang's position as CEO, 100% of his equity grants should be at-risk and performance-based, tightly aligning his interests with stockholders. Consistent with its practice in recent years, the CC granted Mr. Huang's target equity opportunity 100% in the form of SY PSUs (which value is aligned with Non-GAAP Operating Income performance) and MY PSUs (which value is aligned with relative stock price performance). For each of our other NEOs, the CC provided 40% of the target equity opportunity in the form of RSUs and 60% of the target equity opportunity in the form of PSUs. The CC, after considering our CEO's recommendations, determined this mix provided an appropriate balance, by placing a greater emphasis on awards contingent upon performance goal achievement while still providing a meaningful amount of time-vesting RSUs to encourage retention and to reward our other NEOs, in line with our stock performance over the long-term.

The CC evaluated market positioning, internal pay equity, individual performance, and level of unvested equity to determine a target equity opportunity value for our NEOs. Because our CEO's target equity opportunity value had been kept constant for the preceding three years, the CC felt it was appropriate to increase the value for Fiscal 2021 to bring that portion of pay closer to the median of peer company chief executive officers, representing an increase of 51% from Fiscal 2020. The target equity opportunity values for our other NEOs represented an average increase of 111% from Fiscal 2020, which the CC felt was appropriate due to their increased responsibilities and scope, to bring those portions of pay closer to the median of peer company executives, as well as to provide for retention. To determine actual shares awarded, the CC used the eight-week trailing average of our stock price ending the week prior to the date of grant, reducing the impact of daily volatility on compensation decisions. This average stock price determined the number of RSUs and the target numbers of SY PSUs and MY PSUs.

The target numbers of SY PSU and MY PSU shares were eligible to vest upon our achievement of the Base Operating Plan Non-GAAP Operating Income performance goal for Fiscal 2021, and the Target TSR performance goal relative to the S&P 500 over a 3-year period starting at the beginning of Fiscal 2021, respectively. No shares were eligible to vest if at least Threshold performance was not achieved. Shares underlying any PSUs that are not earned are cancelled.

If the Company achieved at least Threshold performance, the minimum number of shares eligible to vest was 50% of the SY PSU target opportunity and 25% of the MY PSU target opportunity. If the Company achieved at least Stretch Operating Plan performance for SY PSUs (or Stretch performance for MY PSUs), the maximum number of shares eligible to vest was capped at 150% of Mr. Huang's, and 200% of our other NEOs' respective, PSU target opportunities.

Goals for and Achievement of Performance-Based Compensation

Based on the Fiscal 2021 strategic plan as approved by the Board, the CC set performance metrics and goals, and certified the Company's performance achievement with resulting payouts to our NEOs, as set forth below:

PERFORMANCE METRICS			
	Variable Cash Plan	SY PSUs	MY PSUs
Metric	Revenue	Non-GAAP Operating Income	TSR relative to the S&P 500
Timeframe	1 year	1 year	3 years
CC's Rationale for Metric	Drives value, contributes to Company's long-term success Focuses on growth in new and existing markets Exclusion of impact from acquisitions to align with stockholder interests Distinct, separate metric from Non-GAAP Operating Income	Drives value, contributes to Company's long-term success Reflects our annual revenue generation and effective operating expense management Exclusion of impact from acquisitions to align with stockholder interests Distinct, separate metric from revenue	Aligns directly with long-term shareholder value creation Provides comparison of our stock price performance, including dividends, against a capital market index in which we compete Relative performance goal accounts for macroeconomic factors impacting the market

⁽¹⁾ For achievement between Threshold and Base Operating Plan (or Target for MY PSUs) and between Base Operating Plan (or Target for MY PSUs) and Stretch Operating Plan (or Stretch for MY PSUs), payouts would be determined using straight-line interpolation. Achievement less than Threshold would result in no payout, and exceeding Stretch Operating Plan (or Stretch for MY PSUs) would result in the capped maximum payout.

⁽²⁾ 25% of the eligible SY PSU shares vested on March 17, 2021, approximately one year after grant, and 6.25% will vest every quarter thereafter for the next three years.

⁽³⁾ 100% of the eligible MY PSUs vested on March 17, 2021, after the 3-year performance period.

* Revenue, on an adjusted basis, is GAAP revenue, as the Company reports in its respective earnings materials, excluding the impact of acquisitions completed during the applicable fiscal year. Non-GAAP Operating Income, on an adjusted basis, is GAAP operating income as the Company reports in its respective earnings materials, excluding stock-based compensation expense, acquisition-related costs, legal settlement costs and other costs, and the estimated unaudited operating income and costs associated with acquisitions completed during the applicable fiscal year.

Each of the performance goal levels as described above were set by the CC with the following objectives:

- **Threshold** was uncertain, but attainable and high enough to create modest value; represented an appropriately decelerated payout for performance below Base Operating Plan (Target for MY PSUs)
- **Base Operating Plan (Target for MY PSU)** was uncertain but attainable with significant effort and execution success; included budgeted investments in future businesses and revenue growth (and for PSUs, gross margin growth) considering macroeconomic conditions and reasonable but challenging growth estimates for ongoing and new businesses
- **Stretch Operating Plan (Stretch for MY PSU)** required exceptional achievement; only possible with strong market factors and a very high level of management execution and corporate performance

At the time the CC established the Fiscal 2021 goals, the Company had executed a definitive agreement to acquire Mellanox. However, due to uncertainty around the likelihood and timing of the receipt of required regulatory approvals as well as regarding the closing of the transaction, the CC believed that in order to best align our executives' interests with those of our stockholders and to remain consistent with our pay for performance philosophy, the Fiscal 2021 performance goals should exclude the additional revenue and estimated unaudited operating income and costs generated by the acquisition of Mellanox and other acquisitions completed during Fiscal 2021.

In accordance with the performance goals and methodology established by the CC in early Fiscal 2021, the CC excluded the additional revenue and the estimated unaudited operating income and costs generated by acquisitions completed during Fiscal 2021 in its certification of Fiscal 2021 results. Such exclusion had the effect of reducing the overall levels of revenue and Non-GAAP Operating Income. The CC determined the foregoing approach best aligned our executives' interests with those of our stockholders and remained consistent with our pay for performance philosophy.

Achievement of goals for Fiscal 2020 and Fiscal 2021 MY PSU grants will be determined after January 2022 and January 2023, respectively.

Target Fiscal 2021 Compensation Actions

The CC's target Fiscal 2021 compensation actions are summarized below for each NEO, reflecting the target value of the variable cash and equity opportunities the CC intended to deliver, as well as the variable cash earned and PSUs which became eligible to vest. The CC considered the factors set forth in *Factors Used in Determining Executive Compensation* above to set the total target pay opportunity for each NEO and to make the Fiscal 2021 changes to NEO target pay opportunity, which are described in *Compensation Actions and Achievement - Total Target Compensation Approach* above.

Additional Executive Compensation Practices, Policies, and Procedures**Stock Ownership Guidelines**

The Board believes that executive officers should hold a significant equity interest in NVIDIA. Our Corporate Governance Policies require the CEO to hold shares of our common stock valued at six times his base salary, and our other NEOs to hold shares of our common stock valued at the NEO's respective base salary. NEOs have up to five years from appointment to reach the ownership threshold. The stock ownership guidelines are intended to further align NEO interests with stockholder interests. Each NEO currently exceeds the stock ownership requirements.

Compensation Recovery ("Clawback") Policy

We maintain a Compensation Recovery Policy for all employees. Under this policy, if we are required to prepare an accounting restatement to correct an accounting error on an interim or annual financial statement included in a report on Form 10-Q or Form 10-K due to material noncompliance with any financial reporting requirement under the federal securities laws, or a Restatement, and if the Board or a committee of independent directors concludes that our CEO, our CFO or any other employee received a variable compensation payment that would not have been payable if the original interim or annual financial statements had reflected the Restatement, which we refer to as the Overpayment, then:

- Our CEO and our CFO will disgorge the net after-tax portion of the Overpayment; and
- The Board or the committee of independent directors in its sole discretion may require any other employee to repay the Overpayment. In using its discretion, the Board or the independent committee may consider whether such person was involved in the preparation of our financial statements or otherwise caused the need for the Restatement and may, to the extent permitted by applicable law, recoup amounts by (1) requiring partial or full repayment by such person of any variable or incentive compensation or any gains realized on the exercise of stock options or on the open-market sale of vested shares, (2) canceling up to all and any outstanding equity awards held by such person and/or (3) adjusting the future compensation of such person.

We will review and update the Compensation Recovery Policy as necessary for compliance with the clawback policy provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act when the final regulations related to that policy are issued.

Tax and Accounting Implications

Under Section 162(m) of the Internal Revenue Code, or Section 162(m), compensation paid to each of the Company's "covered employees" that exceeds \$1 million per taxable year is generally non-deductible unless the compensation qualifies for certain grandfathered exceptions (including the "performance-based compensation" exception) for certain compensation paid pursuant to a written binding contract in effect on November 2, 2017 and not materially modified on or after such date.

Although the CC will continue to consider tax implications as one factor in determining executive compensation, the CC also looks at other factors in making its decisions and retains the flexibility to provide compensation for the NEOs in a manner consistent with the goals of the Company's executive compensation program and the best interests of the Company and its stockholders, which may include providing for compensation that is not deductible by the Company due to the deduction limit under Section 162(m). The CC also retains the flexibility to modify compensation that was initially intended to be exempt from the deduction limit under Section 162(m) if it determines that such modifications are consistent with the Company's business needs.

Our CC also considers the impact of Section 409A of the Internal Revenue Code, and in general, our executive plans and programs are designed to comply with the requirements of that section to avoid the possible adverse tax consequences that may arise from non-compliance.

Under FASB ASC Topic 718, the Company is required to estimate and record an expense for each award of equity compensation over the vesting period of the award. We record share-based compensation expense on an ongoing basis according to FASB ASC Topic 718.

Risk Analysis of Our Compensation Plans

With the oversight of the CC, members from the Company's Legal, Human Resources and Finance departments, as well as Exequity, the independent consultant engaged by the CC, performed an assessment of the Company's compensation programs and policies for Fiscal 2021 as generally applicable to our employees to ascertain any potential material risks that may be created by our compensation programs. The assessment focused on programs with variability of payout and the ability of participants to directly affect payout and the controls over participant action and payout—specifically, the Company's variable cash compensation, equity compensation, and sales incentive compensation programs. We identified the key terms of these programs, potential concerns regarding risk taking behavior, and specific risk mitigation features. The assessment was first presented to our Senior Vice President, Human Resources; our CFO; and our General Counsel, and then presented to the CC.

The CC considered the findings of the assessment described above and concluded that our compensation programs, which are structured to recognize both short-term and long-term contributions to the Company, do not create risks which are reasonably likely to have a material adverse effect on our business or financial condition.

The CC believes that the following compensation design features guard against excessive risk-taking:

- ✓ Our compensation program encourages our employees to remain focused on both our short-term and long-term goals
- ✓ We design our variable cash and PSU compensation programs for executives so that payouts are based on achievement of corporate performance targets, and we cap the potential award payout
- ✓ We have internal controls over our financial accounting and reporting which is used to measure and determine the eligible compensation awards under our Variable Cash Plan and our SY PSUs
- ✓ Financial plan target goals and final awards under our Variable Cash Plan and our SY PSUs are approved by the CC and consistent with the annual operating plan approved by the full Board each year
- ✓ MY PSUs are designed with a relative goal
- ✓ We have a compensation recovery policy applicable to all employees that allows NVIDIA to recover compensation paid in situations of fraud or material financial misconduct
- ✓ All executive officer equity awards have multi-year vesting
- ✓ We have stock ownership guidelines that we believe are reasonable and are designed to align our executive officers' interests with those of our stockholders
- ✓ We enforce a "no-hedging" policy and a "no-pledging" policy involving our common stock which prevents our employees from insulating themselves from the effects of NVIDIA stock price performance

Employment, Severance and Change-in-Control Arrangements

Employment Agreements. Our executive officers are “at-will” employees and we do not have employment, severance or change-in-control agreements with our executive officers.

Change-in-Control Arrangements. Our 2007 Plan provides that in the event of a corporate transaction or a change-in-control, outstanding stock awards may be assumed, continued, or substituted by the surviving corporation. If the surviving corporation does not assume, continue, or substitute such stock awards, then (a) with respect to any stock awards that are held by individuals performing services for NVIDIA immediately prior to the effective time of the transaction, the vesting and exercisability provisions of such stock awards will be accelerated in full and such stock awards will be terminated if not exercised prior to the effective date of the corporate transaction or change-in-control, and (b) all other outstanding stock awards will be terminated if not exercised on or prior to the effective date of the corporate transaction or change-in-control.

Potential Payments Upon Termination or Change-in-Control

Upon a change-in-control or certain other corporate transactions of NVIDIA, unvested RSUs and PSUs will fully vest in some cases as described above under *Employment, Severance and Change-in-Control Arrangements—Change-in-Control Arrangements*. The table below shows our estimates of the amount of the benefit each of our NEOs would have received if the unvested RSUs and PSUs held by them as of January 31, 2021 had become fully vested as a result of a change-in-control, calculated by multiplying the number of unvested RSUs and PSUs held by the applicable NEO by the \$519.59 closing price of our common stock on January 29, 2021.

The two tables below reflect the actual numbers of the SY PSUs granted in Fiscal 2021 and MY PSUs granted in Fiscal 2019 that would be eligible to vest, based on our performance during the relevant performance period for such awards, as certified by our CC shortly after the end of Fiscal 2021. The values of the estimated and actual SY PSUs and MY PSUs in the tables below were calculated by multiplying the applicable number of SY PSUs and MY PSUs held by each respective NEO and listed below, by the \$519.59 closing price of our common stock on January 29, 2021.

Pay Ratio

In accordance with Item 402(u) of Regulation S-K, promulgated by the Dodd-Frank Wall Street Reform and Consumer Protection Act, we determined the ratio of: (a) the annual total compensation of our CEO, to (b) the median of the annual total compensation of all our employees, except for our CEO, both calculated in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K.

To determine the median of the annual total compensation of all of our employees, except for our CEO, for Fiscal 2021, we used a consistently applied compensation measure which aggregated, for each employee employed by us on the last business day of Fiscal 2021, or January 29, 2021: (i) target base salary as of January 29, 2021 (annualized for permanent employees who were employed by us for less than the entire fiscal year), (ii) variable cash earned during Fiscal 2021, and (iii) aggregate full grant date fair value of equity awards granted during Fiscal 2021, calculated in accordance with FASB ASC Topic 718 and assuming the probable outcome of the conditions at Base Operating Plan for performance-based awards. Compensation paid in foreign currencies was converted to U.S. dollars based on exchange rates in effect on January 29, 2021.

After applying the methodology described above, we determined the identity of our median employee for Fiscal 2021, whose compensation for Fiscal 2021 was \$215,930. Our CEO's compensation for Fiscal 2021 was \$19,316,401. Therefore, our Fiscal 2021 CEO to median employee pay ratio was 89:1.

This pay ratio represents our reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K and applicable guidance, which provide significant flexibility in how companies identify the median employee. Each company may use a different methodology and make different assumptions. As a result, and as explained by the SEC when it adopted these rules, in considering the pay ratio disclosure, stockholders should keep in mind that the rule was not designed to facilitate comparisons of pay ratios among different companies, even companies within the same industry, but rather to allow stockholders to better understand and assess each particular company's compensation practices and pay ratio disclosures. Neither the CC nor our management used our Fiscal 2021 CEO to median employee pay ratio in making compensation decisions.

Compensation Committee Interlocks and Insider Participation

At the beginning of Fiscal 2021, the CC initially consisted of Messrs. Burgess, Coxe, Jones, and Seawell and Dr. Drell. After the 2020 Meeting, the CC became composed of Messrs. Burgess, Coxe, and Jones and Dr. Drell. No member of the CC is an officer or employee of NVIDIA, and none of our executive officers serve as a director or member of a compensation committee of any entity that has one or more executive officers serving as a member of our Board or CC.

Compensation Committee Report

The Compensation Committee of the Board of Directors oversees the compensation programs of NVIDIA on behalf of the Board of Directors. In fulfilling its oversight responsibilities, the Compensation Committee reviewed and discussed with management the Compensation Discussion and Analysis included in this proxy statement.

In reliance on the review and discussions referred to above, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Annual Report on Form 10-K of NVIDIA for the year ended January 31, 2021 and in this proxy statement.

Proposal 3—Ratification of the Selection of Independent Registered Public Accounting Firm for Fiscal 2022

What am I voting on? Ratification of the selection of PwC as our independent registered public accounting firm for Fiscal 2022.

Vote required: A majority of the shares present or represented by proxy.

Effect of abstentions: Same as a vote AGAINST.

Effect of broker non-votes: None (because this is a routine proposal, there are no broker non-votes).

The AC has selected PwC, which has audited our financial statements annually since 2004, to serve as our independent registered public accounting firm for Fiscal 2022. Our lead audit partner at PwC serves no more than five consecutive years in that role. Stockholder ratification of the AC's selection of PwC is not required by our Bylaws or any other governing documents or laws. As a matter of good corporate governance, we are submitting the selection of PwC to our stockholders for ratification. If our stockholders do not ratify the selection, the AC will reconsider whether or not to retain PwC. Even if the selection is ratified, the AC in its sole discretion may direct the appointment of a different independent registered public accounting firm at any time during the fiscal year if it determines that such a change would be in our best interests and those of our stockholders. The AC believes it is in the best interests of NVIDIA and our stockholders to retain PwC.

We expect that a representative of PwC will attend the 2021 Meeting. The PwC representative will have an opportunity to make a statement at the 2021 Meeting if he or she so desires and will also be available to respond to appropriate stockholder questions.

Recommendation of the Board

The Board recommends that you vote **FOR** the ratification of the selection of PwC as our independent registered accounting firm for our fiscal year ending January 30, 2022.

Fees Billed by the Independent Registered Public Accounting Firm

The following is a summary of fees billed by PwC for Fiscal 2021 and 2020 for audit, tax and other professional services during each fiscal year:

	Fiscal 2021	Fiscal 2020
Audit Fees ⁽¹⁾	\$ 6,283,381	\$ 5,028,120
Tax Fees ⁽²⁾	609,281	208,062
All Other Fees ⁽³⁾	7,200	4,500
Total Fees	\$ 6,899,862	\$ 5,240,682

⁽¹⁾ Audit fees include fees for the audit of our consolidated financial statements, including business combination activities during the year, the audit of our internal control over financial reporting, reviews of our quarterly financial statements and annual report, reviews of SEC registration statements and related consents, review of an SEC filing for public debt financing and related comfort letter, and fees related to statutory audits of some of our international entities.

⁽²⁾ Tax fees consisted of fees for tax compliance and consultation services.

⁽³⁾ All other fees consisted of fees for products or services other than those included above, including payment to PwC related to the use of accounting research software and an industry report.

All of the services provided for Fiscal 2021 and 2020 described above were pre-approved by the AC or the Chairperson of the AC through the authority granted to him by the AC, which is described below. Our AC determined that the rendering of services other than audit services by PwC was compatible with maintaining PwC's independence.

Pre-Approval Policies and Procedures

The AC has adopted policies and procedures for the pre-approval of all audit and permissible non-audit services rendered by our independent registered public accounting firm. The policy generally permits pre-approvals of specified permissible services in the defined categories of audit services, audit-related services and tax services up to specified amounts. Pre-approval may also be given as part of the AC's approval of the scope of the engagement of our independent registered public accounting firm or on an individual case-by-case basis before the independent registered public accounting firm is engaged to provide each service. In some cases the full AC provides pre-approval for up to a year related to a particular defined task or scope. In other cases, the AC has delegated power to Mr. McCaffery, the Chairperson of our AC, to pre-approve additional non-audit services if the need for the service was unanticipated and approval is required prior to the next scheduled meeting of the AC. Mr. McCaffery then communicates such pre-approval to the full AC at its next meeting.

Report of the Audit Committee of the Board of Directors

The material in this report is not "soliciting material," is not deemed "filed" with the SEC and is not to be incorporated by reference in any of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing, except to the extent specifically incorporated by reference therein.

The Audit Committee, or AC, oversees accounting, financial reporting, internal control over financial reporting, financial practices and audit activities of NVIDIA and its subsidiaries. The AC reviews the results and scope of the audit and other services provided by the independent registered public accounting firm and reviews financial statements and the accounting policies followed by NVIDIA prior to the issuance of the financial statements with both management and the independent registered public accounting firm.

Management is responsible for the financial reporting process, the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States, or GAAP, the system of internal control over financial reporting, and the procedures designed to facilitate compliance with accounting standards and applicable laws and regulations. PricewaterhouseCoopers LLP, or PwC, our independent registered public accounting firm for Fiscal 2021, was responsible for performing an independent audit of the consolidated financial statements and issuing a report on the consolidated financial statements and of the effectiveness of our internal control over financial reporting as of January 31, 2021. PwC's judgments as to the quality, not just the acceptability, of our accounting principles and such other matters are required to be disclosed to the AC under applicable standards. The AC oversees these processes. Also, the AC has ultimate authority and responsibility to select, evaluate and, when appropriate, terminate the independent registered public accounting firm. The AC approves audit fees and non-audit services provided by and fees paid to the independent registered public accounting firm.

NVIDIA has an internal audit function that reports to the AC. This function is responsible for objectively reviewing and evaluating the adequacy, effectiveness and quality of our system of internal controls and the operating effectiveness of our business processes. The AC approves an annual internal audit plan and monitors the activities and performance of our internal audit function throughout the year to ensure the plan objectives are carried out and met.

The AC members are not professional accountants or auditors, and their functions are not intended to duplicate or to certify the activities of management or the independent registered public accounting firm. The AC does not plan or conduct audits, determine that our financial statements are complete and accurate and in accordance with GAAP or assess our internal control over financial reporting. The AC relies, without additional independent verification, on the information provided by our management and on the representations made by management that the financial statements have been prepared with integrity and objectivity, and the opinion of PwC that such financial statements have been prepared in conformity with GAAP.

In this context, the AC reviewed and discussed the audited consolidated financial statements for Fiscal 2021 with management and our internal control over financial reporting with management and PwC. Specifically, the AC discussed with PwC the matters required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board and the SEC. We have received from PwC the written disclosures and letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding PwC's communications with the AC concerning independence. The AC also considered whether the provision of certain permitted non-audit services by PwC is compatible with PwC's independence and discussed PwC's independence with PwC.

Based on the AC's review and discussions, the AC recommended to the Board of Directors that the audited consolidated financial statements be included in the Annual Report on Form 10-K of NVIDIA for the fiscal year ended January 31, 2021.

Proposal 4—Approval of an Amendment to our Amended and Restated Certificate of Incorporation to Increase the Number of Authorized Shares of Common Stock from 2 Billion Shares to 4 Billion Shares

What am I voting on? Approval of an amendment to our Charter to increase the number of authorized shares of common stock from 2 billion shares to 4 billion shares.

Vote required: A majority of the shares outstanding.

Effect of abstentions: Same as a vote AGAINST.

Effect of broker non-votes: Same as a vote AGAINST.

For purposes of this Proposal 4, the term “**Proposed Amendment**” refers to an amendment and restatement of our Charter.

Description of the Proposed Amendment

Our Charter currently authorizes the issuance of up to two billion shares of common stock, par value \$0.001 per share, and two million shares of preferred stock, par value \$0.001 per share.

On April 7, 2021, our Board adopted resolutions approving an amendment to the Charter to increase the number of authorized shares of common stock from two billion shares to four billion shares. Our Board is recommending the proposed increase in the number of authorized shares of common stock to provide adequate shares of common stock for general corporate purposes, as further described below. The Board determined that the Proposed Amendment is advisable and in the best interests of the Company and directed that the proposed Amendment be submitted for adoption and approval by stockholders at the Meeting.

The full text of the Proposed Amendment is set forth in Appendix A to this Proxy Statement. The Proposed Amendment would not affect the number of authorized shares of preferred stock. Currently, there are no shares of preferred stock issued and outstanding.

Purposes and Effect of the Proposed Amendment and Effect of Stockholder Approval

As of April 5, 2021, we have 622,383,615 shares of common stock outstanding and the number of authorized shares of our common stock is two billion. Following the filing of the Proposed Amendment, the number of authorized shares of our common stock will be increased to four billion.

If our stockholders adopt and approve the Proposed Amendment, the Proposed Amendment will become effective on the date that it is filed with the Secretary of State of the State of Delaware. If the Proposed Amendment is adopted and approved by the stockholders, the Company currently anticipates filing the Proposed Amendment with the Secretary of State of the State of Delaware on or around June 4, 2021. If the Proposed Amendment is not adopted and approved by the stockholders or is subsequently abandoned by the Board, the Proposed Amendment will not be filed with the Secretary of State of the State of Delaware and our authorized number of shares of common stock will remain at two billion. Further, if the Board subsequently determines not to proceed with the filing of the Proposed Amendment, it will not be filed with the Secretary of State of the State of Delaware even if it is approved by stockholders.

As a general matter, the increase in our authorized but unissued shares of common stock as a result of the Proposed Amendment would enable the Board to issue additional shares of common stock in its discretion from time to time for general corporate purposes, including, but not limited to, expanding our business through mergers and acquisitions, including shares we would be obligated to issue in connection with the pending acquisition of Arm Limited; stock dividends and/or stock splits; providing equity incentives to employees, officers or directors; and the raising of additional capital. Such issuances would occur without further action or approval of our stockholders and would be subject to and limited by any rules or listing requirements of Nasdaq or of any other applicable rules or regulations. Except for shares of common stock reserved for grant(s) pursuant to our equity compensation plans, the Company does not currently have any other plans, agreements, commitments or understandings with respect to the issuance of the additional shares (or the currently authorized but unissued shares) of common stock, nor does the Company currently have any plans, arrangements, commitments or understandings with respect to the issuance of any shares of preferred stock.

Failure by the stockholders to approve the Proposed Amendment would reduce the ability of the Board to take the potential future actions to issue additional common stock discussed above.

Any additional authorized shares of common stock, if and when issued, would be part of our existing class of common stock, and would have the same rights and privileges as the currently outstanding shares of common stock. The holders of common stock are not entitled to preemptive rights or cumulative voting.

Effective Date of Proposed Amendment

If the Proposed Amendment is adopted by the required vote of stockholders, it will become effective on the date the Proposed Amendment is filed with the Secretary of State of the State of Delaware, which we anticipate will be on or around June 4, 2021.

Reservation of Right to Abandon Proposed Amendment

Our Board reserves the right to not proceed with the Proposed Amendment and to abandon the Proposed Amendment without further action by our stockholders at any time before the effectiveness of the filing of the Proposed Amendment with the Secretary of State of the State of Delaware, even if the Proposed Amendment is adopted and approved by our stockholders at the Meeting. By voting in favor of the Proposed Amendment, you are expressly also authorizing our Board to delay, not proceed with, and abandon, the Proposed Amendment if it should so decide, in its sole discretion, that such action is in the best interests of our Company and its stockholders. If the Board elects to abandon the Proposed Amendment, the number of authorized shares of common stock will remain at two billion.

Recommendation of the Board

The Board recommends that you vote **FOR** the approval of the Proposed Amendment to increase the number of authorized shares of common stock from two billion shares to four billion shares.

To our knowledge, based solely on a review of the copies of such reports furnished to us and written representations that no other reports were required, all Section 16(a) filing requirements applicable to individuals who were, during Fiscal 2021, our executive officers, directors and greater than 10% beneficial owners were complied with, except for our Chief Accounting Officer, Donald Robertson, who filed one late Form 4 pertaining to one transaction, Mr. Neal who filed one late Form 4 pertaining to six transactions, and Mr. Stevens who filed one late Form 5 pertaining to two transactions.

Other Matters

The Board knows of no other matters that will be presented for consideration at the 2021 Meeting. If any other matters are properly brought before the 2021 Meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.
